

Local Governments Partner Constituent Group Response to Draft New Urban Agenda (18 July 2016)

Local governments would like to congratulate the work done and would like to stress the importance of capturing in art 150, 154 the need to find structured dialogue mechanisms for local governments with the UN system.

We would further be grateful if the efforts made by the self-organised constituency through the GTF would be acknowledged on the text. We would appreciate mention to the World Assembly of Local and Regional Governments

On para 113 we would like to see mention of local government associations for implementation.

We thank the Co-chairs for the work done.
