Investing in Sustainable Cities: Challenges and Opportunities

When: October 17, 2016, 9:30-10:30 ECT

Where: Room MR19

Through an interactive panel discussion featuring International Development Finance Club (IDFC) members and government representatives, we will explore the role of Development Finance Institutions (DFIs) in supporting sustainable urban development and discuss experiences with past and current urban development initiatives. Recognizing that financing is a core issue of the New Urban Agenda and one of cities' biggest challenges, this event aims to spark dialogue among DFIs and other capital providers, government actors, and civil society to identify concrete ways to mobilize resources for sustainable urban development. This event is a collaboration between CAF-Development Bank of Latin America, Agence Française de Développement (AFD), and Japan International Cooperation Agency (JICA) on behalf of the International Development Finance Club (IDFC), and the World Resources Institute (WRI).
